REGENCY® WINDOWS RECOGNIZED AS **ENERGY STAR® MOST EFFICIENT 2015**

EXPERTLY CRAFTED FOR SUPERIOR ENERGY SAVINGS

For the fourth straight year, Regency windows are among the select windows designated as ENERGY STAR Most Efficient for meeting rigorous ENERGY STAR performance criteria:

1. Must have an Energy Rating (ER) of 36 (unitless) or higher, **OR**
2. Must have a U-factor of 1.14 W/m²·K (0.20 Btu/h·ft.²·°F) or lower and have an ER of 26 (unitless) or higher

ALL REGENCY WINDOW STYLES QUALIFY!

All Regency windows built with EnergyPlus™ glass are included in this ENERGY STAR designation. Regency's fusion-welded construction, advanced insulating components and high-performance glass system create a powerful thermal barrier against energy loss, keeping homes warmer in winter and cooler in summer with less energy usage.

ENERGYPLUS GLASS TECHNOLOGY

- Designed specifically for challenging northern climates
- Double-glazed insulated glass unit with Low-E, argon gas and Super Spacer® "warm-edge" structural foam spacer
- Additional glass package options featuring triple glazing and advanced solar control also available
